<b>REISSUE APPLICATION DECLARATION BY THE INVENTOR</b>	Docket Number (Optional) 96L206
<p>I hereby declare that: Each inventor's residence, mailing address and citizenship are stated below next to their name. I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number <u>5,719,107</u>, granted <u>February 17, 1998</u> and for which a reissue patent is sought on the invention entitled <u>Crankcase Lubricant for Heavy Duty Diesel Oil</u></p> <p>the specification of which</p> <p><input type="checkbox"/> is attached hereto.</p> <p><input checked="" type="checkbox"/> was filed on <u>July 24, 2001</u> as reissue application number <u>09/911,879</u> and was amended on _____ (If applicable)</p> <p>I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.</p> <p><input type="checkbox"/> I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.</p> <p>I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)</p> <p><input checked="" type="checkbox"/> by reason of a defective specification or drawing.</p> <p><input type="checkbox"/> by reason of the patentee claiming more or less than he had the right to claim in the patent.</p> <p><input type="checkbox"/> by reason of other errors.</p> <p>At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:</p> <p><b>U.S. Patent No. 5,719,107 claims <i>inter alia</i>, a lubricating oil composition containing (A) at least 0.3% of a metal phenate and (E) less than 0.3 mass % of sulfurized phenols. The list of included metal phenates (A) provided in the specification includes metal salts of sulfurized phenols (col. 8, line 25). The list of excluded sulfurized phenols (E) includes "and such oxidation inhibitors such as alkaline earth metal salts of alkylphenolthioesters having preferably C<sub>5</sub> to C<sub>12</sub> alkyl side chains, and calcium nonylphenol sulfide".</b></p> <p><b>Because the list of required component (A) overlaps with that of excluded component (E), the application can be construed as partially inoperative. The description of excluded component (E) should only have referred to ashless materials. Thus, the application can be rendered clear by cancellation of the statement "and such oxidation inhibitors such as alkaline earth metal salts of alkylphenolthioesters having preferably C<sub>5</sub> to C<sub>12</sub> alkyl side chains, and calcium nonylphenol sulfide" from col. 9, lines 12 to 15 of the specification.</b></p>
